

# Power. Driven.

**Taking more people to their game...  
and job...than any other battery.**

**Crown Battery. The true power in golf.** People responsible for equipment performance know that Crown Deep Cycle Batteries out-perform all others and are considered the real **Power in Golf**. Literally. Because playing hard, or working hard, requires a heavy-duty battery that can take it.

Delivering power at your command... and performing longer at a lower cost than most competitors. In today's competitive world no one can support deep cycle battery users better, and in turn, deliver the continued quality, heavy-duty construction and service that is the trademark of Crown Battery.

**The Power Behind Performance**

# Crown Heavy-Duty Deep Cycle Batteries.

## Heavy-Duty Construction & Performance. The True Power in Golf.

### • Heavy-Duty Construction

Crown deep cycle batteries combine advanced features such as high-performance plates and solid-cast connectors to deliver more machine uptime, less maintenance and greater charging efficiency.

### • Tough Connectors

Machine-burned, heavy-duty TTP (through-the-partition), COS (cast-on strap) and terminal post connectors deliver maximum efficiency and durability.

### • Polypropylene Case & Cover

Durable container design includes a removable handle feature for easy installation and safe handling.

### • Anchor-Molded Terminal

Crown golf batteries molded-in-cover terminal affords superior durability, problem-free installation and best-available corrosion protection to deliver maximum productivity and safe handling.

### • Z<sup>3</sup> Plate Construction

Crown's Z<sup>3</sup> design combines three integrated features for superior performance and durability:

- Our signature "Diamond Z" grid architecture.
- Centerline plate lug design with LifePlus™ active material.
- Advanced bottom-plate design that provides best-available short-circuit protection.

### • PremiumFlex-Sil® Plate Protection

Flex-Sil separators' micro-ribbed, fiber glass-backed design enables superior running time and extended cycle life performance with reduced watering service frequency.

## Available Terminals

### Standard Type

### Type S

### Key

**D** = Standard Terminal (Dual Automotive / Stainless Threaded Terminal)  
**F** = Stainless Steel Threaded Stud Terminal  
**I** = Cover with Individual Vent Caps / Spin Vent Option Available

**J** = Battery Fitted with Handle or Lifting Lug  
**L** = Antimony Alloy Construction: Low Maintenance Service
